Build & Configure a Server

By Leandro Baroca

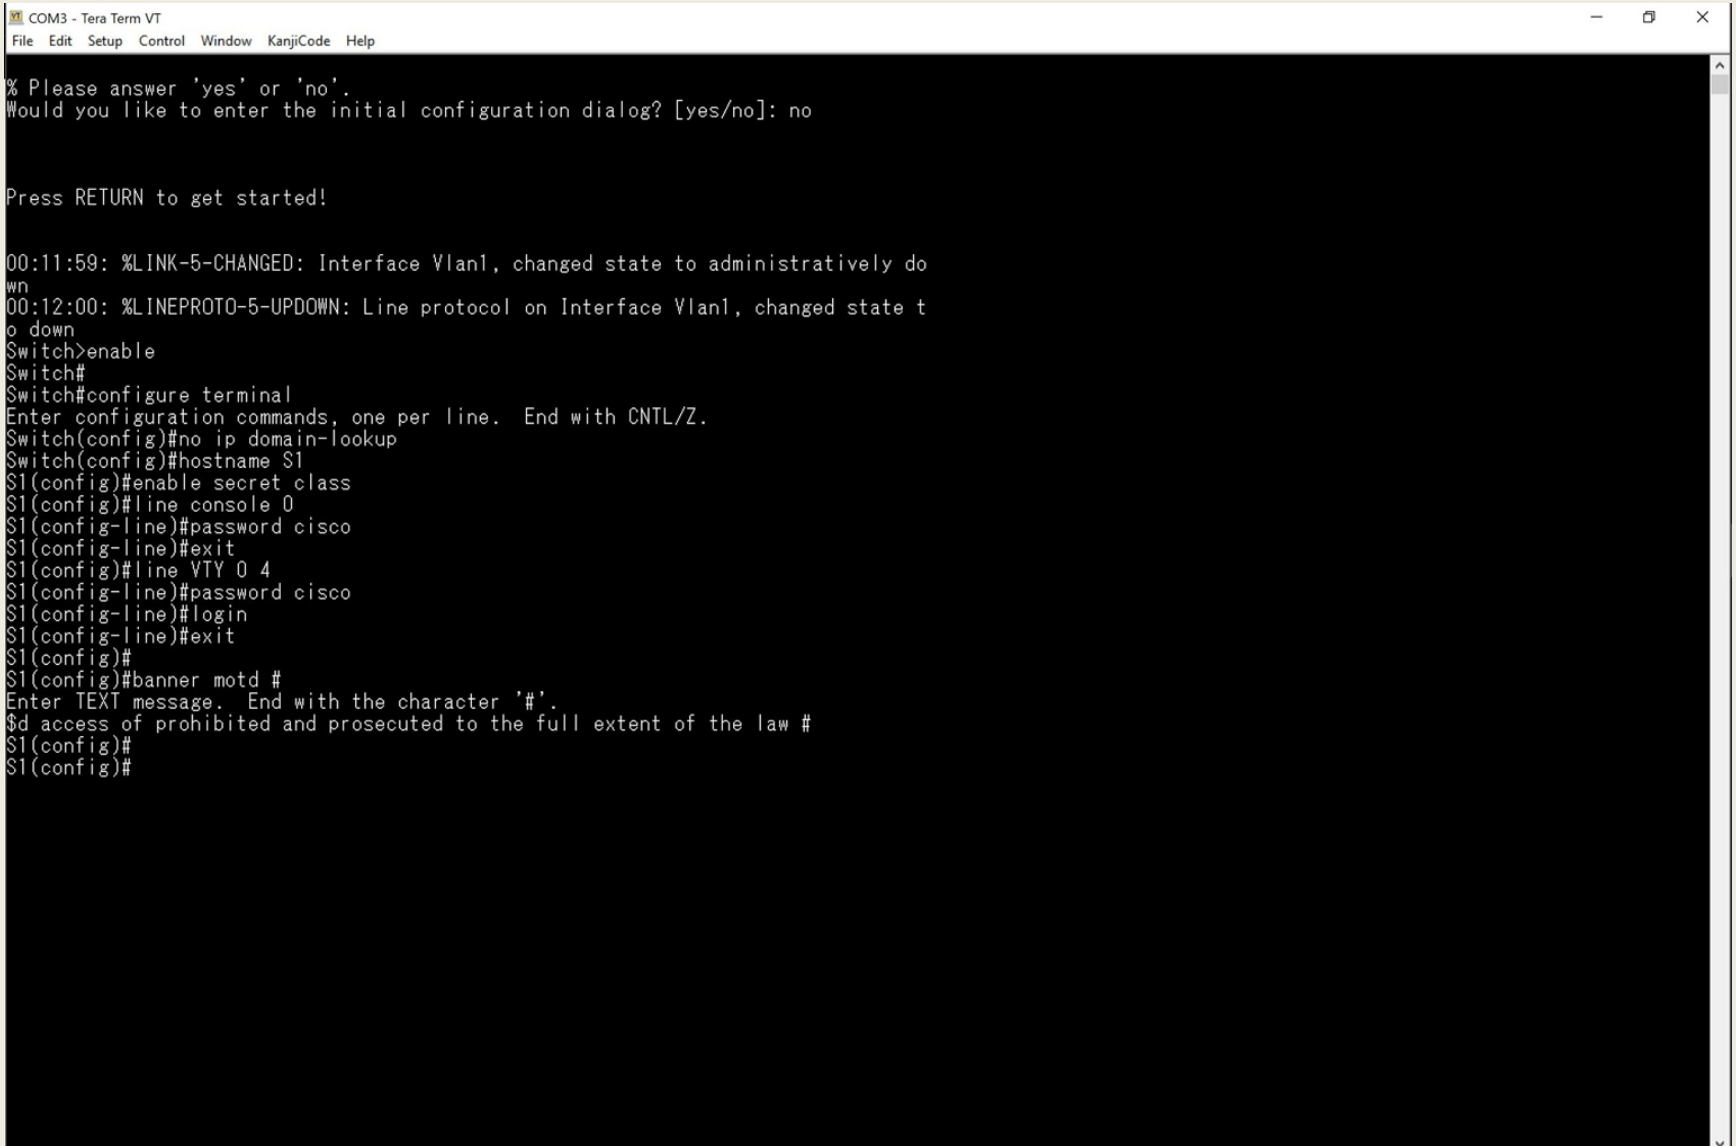

Portfolio of Evidence

The following slides represent a portfolio of evidence that I, Leandro Baroca, have built and configured a Windows Server 2008 as specified in the assignment brief entitled “Build and Configure a Server”.

FQDN

FLATRON W2246S
Active Directory Domain Services Installation Wizard
Name the Forest Root Domain
The first domain in the forest is the forest root domain. Its name is also the name of the forest.
Type the fully qualified domain name (FQDN) of the new forest root domain.
FQDN of the forest root domain:
compbikes.com
Example: corp.contoso.com
